### 1b. Previous DSG Meeting Summary and Action Updates

KG asked for feedback on the summary for the previous Delivery Sub-Group (DSG) occurrence; no comments were received. The summary was approved.

KG provided an update on the two outstanding actions. XRN 5732 has now been delivered and the solution is operational. XRN 5923 was agreed at the January ChMC to be included in DDP Release 6, 1 and 2 as part of the PAC and PARR suite of changes prioritised for delivery following customer input. KG asked DSG members whether they were content for both actions to be closed. No objections were raised, and the actions were therefore closed.
